

# Technical Specification

TOUCHTECH AB  
KUNGSPORTSAVENYEN 22  
411 36 GÖTEBORG

[www.touchtech.com](http://www.touchtech.com)

Applies to Touchtech Lima version 1.8 (major version 1).

## GENERAL

The Software Product is an interactive application that can be run on validly licensed copy Windows 7 or Windows 8 devices, and on Mac devices by using Boot Camp. The Software Product supports a variety of form factors such as tablets, kiosks, tables and walls. For more information about the Software Product, please visit <https://www.touchtech.com/>.

## MINIMUM SYSTEM REQUIREMENTS

- Windows 7 or Windows 8, 64-bit
  - Includes Windows 7 Embedded, Windows 8 Pro and Enterprise
  - 32-bit can be used but 64-bit is preferred
  - Windows RT, i.e. the ARM-based Windows OS, is not supported
- Processor: Intel Core i5 or equivalent AMD processor
- Memory: 4 GB (8 GB or more is preferred.)
- Graphics card: 1 GB graphics card – Intel HD (5000+), AMD or NVIDIA. (A dedicated graphics card is preferred.)
- Screen resolution: 1920 x 1080 pixels (16:9 aspect ratio)
- Any touch device with Microsoft® Windows® 7 or 8 certified touch drivers
- Any pen device with Microsoft® Windows® 7 or 8 certified pen drivers

Mac OS X is not natively supported. However, the Software Product works well with Apple Boot Camp.

A multitouch screen is not required. However, without a multitouch screen only single-touch actions can be simulated through the click and drag actions of a mouse.

## COMPONENTS

The Software Product includes two applications:

- Touchtech Lima – the main application
- Touchtech Lima Configuration – the configuration application, which allows you to adjust features, setup content, customize appearance and general settings.

## LICENSING

The Software Product requires a license to run. The license is linked to the device it was installed on. The Software product license is managed in the configuration application.

## SETUP AND DEPLOYMENT REQUIREMENTS

In order to deploy the Software Product an Internet connection is required.

License activation requirements:

- Internet TCP/IP connectivity for port 443 (HTTP over SSL/TLS)
- System time must be properly set

## LANGUAGE SUPPORT

The Software Product is available in English. Content can be in any language.

## DEFAULT EXAMPLE CONTENT

The Software Product installer comes with example content (pictures, videos, pdf etc.) that are intended to be used only for demonstrational purposes. Changes or reselling this content outside the Software Product is not allowed. The Licensee may remove the example content for commercial use.
